Description

If the user does not close the website before 23:55. User can add some order on cart, food selection seems open and "Order now" selection seems open.

Steps to reproduce

- > before 23:55 navigate to website
- > wait till 23:55
- > add some food on your cart
- > see you can add some foods your cart

Expected result

User can't add foods after 23:55

Actual result

If user open before 23:55 and does not close, user can add any food on cart
